Feynman Technique Worksheet

Explain it simply. Find the gaps. Fix them.

Name: _____ **Class:** _____ **Subject:** _____ **Date:** _____

> Pretend you are teaching a friend who has never heard of this topic. Use everyday words and a simple example. Where you get stuck or vague is exactly what you need to study again.

Concept I am explaining: _____

Step 1: Explain it in plain language (aloud first, then write it here)

Step 2: Where did my explanation become vague or confusing?

Step 3: What do I need to check in the textbook?

Step 4: Explain it again using a simpler example

Could I now explain it without looking? ☐ Yes ☐ Almost ☐ Not yet
